

XVI SCIENCE FESTIVAL
21-30 September 2012
Nencki Institute of Experimental Biology PAS
Pasteur str. 3

YOUTH CLUBS

- 44.** *A good and bad cholesterol and how does it work.* E. Wyroba; 24.09.; 16.00
- 45.** *Do biological membranes connect or separate? Transporting systems for low molecular weight compounds.* K. Nałęcz; 25.09.; 16.00
- 46.** *Migrating cells - allies or enemies.* W. Kłopocka; 26. 09. godz. 16.00
- 47.** *Evolution of the nervous system.* K. Turlejski; 27.09.; 16.00

THEMATIC CLUBS - TO BE HEALTHY

- 155.** *Malaria and linked congenital anemias - the most dangerous diseases in the world.* T. Wilanowski; 24.09.; 18.00
- 156.** *One world – two faces. How does an autistic person’s brain process information?* J. Grochowska; 25.09.; 18.00
- 157.** *The healthy brain is not trustworthy.* A. Wróbel; 26.09. godz.18
- 158.** *The spine- its mechanics and function.* P. Górski, R. Krasicki; 27.09.; 18.00

EVENING WITH THE SCIENCE

- 215.** *Biological evening* organized by the Nencki’s Phd Students Council; 28.09. godz. 18.00

and

LITTLE MAN FESTIVAL OF SCIENCE

Department of Physics of the Warsaw Technical University, Koszykowa str. 75

Biological Kindergarten organized by the Nencki’s Phd Students Council; 30.09.; 10.00-16.00
