

Ethology: an interesting, increasingly interesting science

Scientific Session organized to celebrate
50 years of the Ethological Seminars in the Nencki Institute (1966 – 2016)
[as a part of the celebration of
100 years of the Nencki Institute of Experimental Biology PAS (1918 – 2018)]
and **25 years of the Polish Ethological Society (PTEtol) (1991-2016)**

Organizers: Polish Ethological Society
Nencki Institute of Experimental Biology PAS

Time and place: Saturday 19th November 2016, Conference Room of the Neurobiology Center, 1st floor of the main building of the Nencki Institute of Experimental Biology PAS, Warsaw, Pasteur St. 3

PROGRAMME

11.00 – 11.30: **prof. Ewa J. Godzińska** (Laboratory of Ethology, Department of Neurophysiology, Nencki Institute of Experimental Biology PAS, Warsaw) „Two jubilees of Polish ethology”.

11.30 – 12.00: **prof. Jerzy A. Chmurzyński** (*professor emeritus*, Laboratory of Ethology, Department of Neurophysiology, Nencki Institute of Experimental Biology PAS, Warsaw) „Nascence and beginnings of the Ethological Seminars in the Nencki Institute”.

12.00 – 12.30: : **prof. Tadeusz Kaleta** (Department of Genetics and Animal Breeding, Faculty of Animal Science, Warsaw University of Life Sciences - SGGW) „Importance of research on animal personality”.

12.30 – 13.00: **dr Paweł Boguszewski** (Laboratory of Animal Models, Neurobiology Center, Nencki Institute of Experimental Biology PAS, Warsaw): "The role of research on animal behaviour in unraveling the secrets of human mind".

13.00 – 13.20: coffee break

13.20 – 13.50: **dr Alicja Puścian** (Laboratory of Emotions Neurobiology, Department of Neurophysiology, Nencki Institute of Experimental Biology PAS, Warsaw) "Testing the behaviour of laboratory animals and its automatization".

13.50 – 14.20: **Michał Figura** (The Association for Nature WOLF, Twardorzeczka) „The use of camera traps in monitoring the behaviour of large carnivorans”.

14.20 - 14.50: **Andrzej Kłosiński, M. Sc.** [animal behaviourist, Centre of Applied Pet Ethology (COAPE) Poland, Cracow] „Ethology in the service of animal behaviourists”.

14.50 – 15.45: lunch break

15.45 – 16.15: **Wojciech Mikołuszko** (scientific journalist, author of popular science books) „Of what use are ethologists for journalists and journalists for ethologists?”.

16.15 – 16.45: **Paweł J. Mazurkiewicz, M. Sc.** [Inter-Faculty Interdisciplinary Doctoral Studies in Natural Sciences and Mathematics (MISDoMP UW), Department of Animal Physiology of the Faculty of Biology of the University of Warsaw, and Laboratory of Ethology, Department of Neurophysiology, Nencki Institute of Experimental Biology PAS, Warsaw] „When the ants refuse to dance, or the popularization of behavioural sciences”.

16.45 – 17.15: **prof. Krzysztof Turlejski** (Faculty of Biology and Environmental Sciences, Cardinal Stefan Wyszyński University in Warsaw) „Evolution of nervous system and evolution of behaviour”.

17.15 – 17.30: **conclusions and closing remarks.**
